Picture and Video Management

In Picture and Video Management interface, you can view and manage the local video files and pictures that you manually record (clip) and capture in Live View and Remote Playback interface. The pictures and video files are stored in the iVMS-4500 directory of the SD card. You can also share the pictures and video files to other available applications.

For sharing pictures and videos to other applications, please perform the following steps.

Steps:

1. Tap ⊘ and then select the pictures and videos you want to share.

2. Tap ⬀ and select the needed application to share.

For batch deleting of the pictures and videos, please perform the steps below.

Steps:

1. Tap ⊘ and then select the pictures and videos you want to delete.

2. Tap 🗑 to delete the selected file(s). Or you can tap ⊗ to cancel.

Picture Management

Steps:

1. Tap a picture and the picture displays in full screen. You can tap 🗑 if you want to delete it, and tap ⬀ to share it to other applications.

2. You can pinch two fingers together to zoom out or spread them apart to zoom in the picture. Or you can double-tap on the picture to realize digital zoom. You can also slide to pan the picture under zoom-in mode.

Video Management

Steps:

1. Tap a video and the video shows in full screen. Tap 🗑 if you want to delete it, and tap ↗ to share it to other applications.

2. Tap ▶ to play it.

Icon	Description
📷	Capture a picture of the playback video.
⏸	Pause the playback.
🔊	Audio control.

3. For playing the recorded (clipped) video of thermal camera, the fire source information, OSD, temperature, ship detection frame, and other information will be displayed on the video image if detected.
